

Medical Writing for Medical Devices

We help our clients in their journey throughout the entire project!

In 2060 there will be twice as many Europeans aged 65 or more

The growing number of patients suffering chronic diseases relies on medical devices as innovative solutions for diagnosis, prevention, monitoring, prediction, prognosis and treatment.

(Consilium Europa)

85%

Not all MDR certificates have been issued yet!

There are > 500,000 devices estimated to be covered by old MDD certificates. (MedTechEurope 2022)

Progress to certification is low

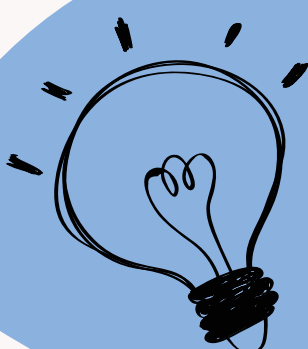

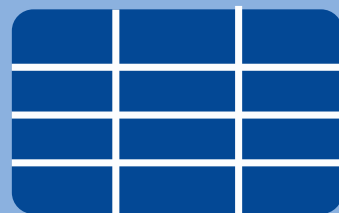

SMEs are more impacted by the MDR than larger companies. (MedTechEurope 2022)

How can we help?

A dedicated team of Medical Writers with extensive experience in MDR documentation

Clinical evaluation

We can help you prepare all your clinical evaluation documents: CEP, CER, SSCP, PMCF & PSUR...

Publication intelligence
